TUBEROSE,

Dwarf Double Pearl

The Dwarf Double Pearl Tuberose produces spikes of waxy white, double flowers, thickly set, and having a permeating sweet fragrance. They should be planted in rich soil after frost danger and given plenty of water during the growing season. They may be started indoors and set out when the weather warms.

Tuberous Rooted **BEGONIAS**

DOUBLE CAMELLIA

Tuberous-Rooted Begonias are fast becoming one of the most popular of summer flowering garden subjects with amateur gardeners in all parts of the country. Their showy blooms in many colors last throughout the summer until frost. As cut flowers they provide spectacular bowl arrangements. They are ideal for pot culture, porch boxes or outdoor bedding. They can be started early in damp peat moss or vermiculite and transplanted to 4 or 5 inch pots as growth starts, or if ground is warm they can be transplanted directly to beds outdoors, in a shady location. Recommended soil preparation: use two parts of good soil and rotted manure, two parts leaf mold or peat moss, one part sand; 3 lbs. bone meal to the bushel of mixture. We stock the most popular type, Double Camellia, in all colors.

GLORIOSA *Rothschildiana*

ORANGE-SCARLET CLIMBING LILY

Also known as the Glory Lily, the Gloriosa Rothschildiana tuber produces a climbing plant which grows rapidly four to six feet tall, requiring trellis support. From 10 to 30 blooms of brilliant scarlet and yellow develop from a single tuber. The plant thrives in southern gardens but is also grown in the North in greenhouses, and outdoors in warm locations during summer months.

The tubers should be planted in a bed of rich soil. Lay the tuber on its side with the sprout end about two inches under the soil and the more slender end somewhat deeper. The plant will grow in full sun or semi-shade.

Premium Quality

GLADIOLUS BULBS

*Most Popular and Fastest
Selling of All Flower Bulbs*

TOP QUALITY select NORTHERN - GROWN Gladiolus bulbs available from December through March at the following prices:

F.O.B. Cocoa, Florida

SIZES	DIAMETER	PRICE PER 1000	APPROX. SHIPPING WT. PER 1000
JUMBOS	2" up	\$30.00	120-140 lbs.
No. 1s	1½ - 2"	27.50	80-100 lbs.

Florida-grown bulbs available after March. Prices for late spring, summer and fall delivery to follow.

Display case furnished upon request, with 1000 bulbs and up.

SHIPPING DATES: We can make bulk shipments of Gladiolus bulbs the year 'round. Generally, Gladiolus bulbs are planted commencing early in the spring and successively throughout the spring and early summer. In the deep south bulbs are put on sale commencing immediately after Christmas; elsewhere sale commences later, about 30 days prior to earliest spring planting dates. In Florida, South Texas and the Gulf Coast, Gladiolus bulbs can be stocked for sale and planting in summer and early fall for fall and winter blooms. Flowers bloom 60 to 80 days from planting date and can withstand cold but not hard freezes.

MINIMUM ORDER: 1000 bulbs (250 or multiples of 250 per variety). In smaller quantities for counter sales, see assortments offered in our S-U-S Cases.

PACKING: In sturdy shipping containers, gross weight 30-35 lbs. per case, color varieties carefully labelled.

COLOR VARIETIES

Below is a partial list of varieties most generally available from us. To avoid shipping delays, allowances should be made in case of "out of stocks"; substitutions of varieties in colors ordered will be made if necessary, unless instructions to the contrary are received.

VALERIA, Soft Scarlet
SPIC & SPAN, Deep Pink
HOPMAN'S GLORY, Yellow
SNOW PRINCESS, White
ELIZABETH THE QUEEN, Lavender

MEMORIAL DAY, Purple
SANS SOUCI, Glowing Red
FRIENDSHIP, Bright Pink
BURMA, Dark Red
WHITE GOLD, Deep Cream

COLOR CARDS FURNISHED

for each variety ordered. Colorful window streamers and planting direction circulars also sent with each shipment.

Giant Hybrid Meade Strain

AMERICAN-GROWN

AMARYLLIS

The American-grown Meade Strain of Amaryllis (*Hippeastrum*) makes gorgeous giant blooms in colors ranging from near white (with pencil striping) through various shades of pink to deepest reds and candy stripes. They are used extensively in the South for outdoor planting and they are popular bulbs in the North for indoor growing in pots. For indoor flowering, the bulbs should be potted in a mixture of fibrous loam, leafmold and sand, with liquid manure applied during the blooming period. They may be potted as soon as available, with the shoulder of the bulb protruding from the soil. If kept at a fairly even temperature of 65° F. they will develop a good vigorous root system. When the weather warms and after blooming, the potted plant can be placed in the soil outdoors and taken in again in the fall for flowering indoors. In mild climates bulbs may be kept outdoors in the ground from season to season; elsewhere they must be lifted and stored in dry sand through the winter.

Imported Royal Dutch

AMARYLLIS

Widely publicized in the flower magazines and general publications, the new, improved Dutch Hybrid Amaryllis (*Hippeastrum*) are in good demand. For their mammoth, majestic blooms, up to 8" across, and superb color and form, they easily justify the premium prices which they command. The mammoth size bulbs which we import, measuring full 3¼"-3½" in diameter, make several blooms to the stem and usually two stems per bulb. They make a truly sensational pot plant and the blooms are long lasting. Available in named color varieties as listed below. Finest strain available, imported from old-established Holland grower. Guaranteed true to color.

DELIVERY: November to March
